

WHMCS To OnApp Users module guide

1. Overview.....	2
2. Installation	2

1. Overview

The WHMCS to OnApp Users module for WHMCS allows you to associate OnApp user with WHMCS user .

2. Installation

To install the module:

1. Download the latest module version from the OnApp website (www.onapp.com/support/downloads).
2. Extract the files using a .tar extraction program.
3. Upload the *modules/admin* folder to the modules folder of your WHMCS installation. The folder structure should be as follows:
`{WHMCS root}/modules/admin/onapp_users/*`
4. Now you can get module under *Utilities/Addon Modules* in your WHMCS admin area.
